

# The Great Race

## Red, Yellow, Green Go.....

1. All teams will leave from the Portland, Maine. Final destination is Portland, Oregon.
2. Each classroom will have a team name. Your team can be divided up by task (i.e. distance group, weather group).
3. Students will be responsible for their itinerary. This includes modes of transportation, lodging and food.
4. The object of the race is to visit all the required sites on the list between Portland, Maine and Portland, Oregon in the quickest amount of time spending the least amount of money. You must use at least three forms of transportation and cannot use air travel. Students must have completed all the required activities to win
  - a. Fill out all nine of the Coinciding Site Sheets
  - b. Log recording route, longitude, latitude and high points the includes distance and time
  - c. Landmark Sheet
  - d. The Ledger Sheets - All money spent must be logged. Prices must be dated and confirmed. Prices of gas, railroad tickets, boat rentals etc... must be researched on the web and be the actual price. Students must

calculate how many gallons of gas they used and how much gas is a gallon when purchased.

- e. Weather must be logged
- f. Overall log must be completed

5. Teachers will be responsible for checking log books.

6. Please use transportation page for instructions and rules on transportation

**Travel days by car cannot exceed 7 hours in length and you cannot use air travel!**

Winning team is get a free virtual fieldtrip and a pizza party!

**YEH!**
